Repayment begins nine months after graduation, or when the student ceases to be enrolled at least half-time. Funds are limited.

Nursing Student Loan

Nursing Student Loans are awarded to students with financial need, as determined by the Federal Student Aid Report, who are enrolled in the nursing program. Interest is subsidized (paid by the government) while the students are in school at least half-time. The interest rate is a fixed 3.86%.

Students who do not qualify for the Direct Subsidized Loan or do not qualify for the maximum Direct Subsidized Loan are eligible to borrow under the Direct Unsubsidized Loan program. The interest rate is a fixed 3.86%. Under this program,

students pay the interest on the loans while they are in school, rather than the federal government. Students may borrow the balance of their award maximum (Example: a freshman qualified for \$2,000 under the direct subsidized program; could borrow \$1,500 under the direct unsubsidized program to meet the award maximum of \$3,500).

Repayment begins six months after graduation, or when the student ceases to be enrolled at least half-time. Mount Marty University uses a schedule academic year of September through May for the majority of its borrowers. The summer school session is considered to be a trailer to the academic year for Direct Loan eligibility purposes. The college may elect to use a borrower-based academic year per individual basis. A borrower-based academic year is individualized for each borrower and follows the borrower's attendance and progress.
